TLBS Corporation

...We are your company

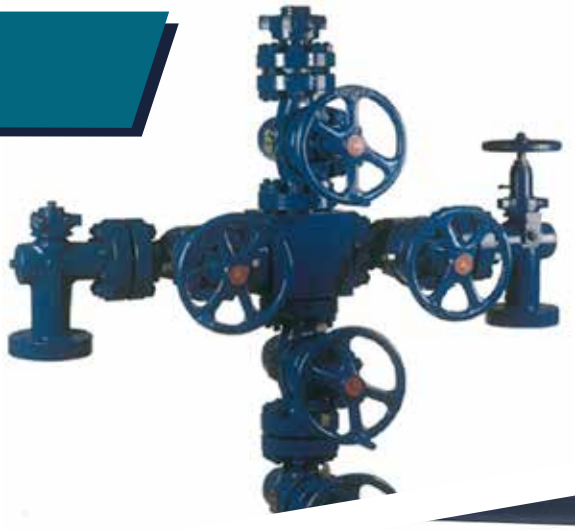

Wholesaler & Distribuitor

We are Suppliers or Equipment and Machinery Materials for the Industry

www.tlbscorporation.com

Materials for The Industry

We are a wholesale supplier, distributor that proposes integral solutions for all types of facilities and development of oilfields, since the union of manufacturers we offer diverse materials, parts, spare parts, consumables, equipment and commercial and industrial machinery.

All materials and products supplied by TLBS; they have full traceability and certification. We consider satisfaction, security and customer service from the purchase plan to the early delivery of the assets, we are regulated by high standards quality performance.

We Supply Materials for The Industry

- Carbon and special alloy steel line pipe, steel plates.
- Accessories for pipes and treatment lines.
- Sucker rods, drill rods, connections and accessories.
- Casing pipeline, christmas trees, production and drilling materials.
- Materials and equipment for oil well completion and service.
- Valves and connections. Steel and structures.
- Production and drilling materials for the oil and gas sector.

Spare, Parts and Consumables for Industry

We propose to reduce costs in your company without lowering quality. Our wholesale supplies service for companies will allow you to minimize costs and control the cost of your budget as a manufacturer, wholesaler and distributor. The special prices will always be attractive depending on the volume required.

We Supply all Types of Industrial Consumables for Light and Heavy Installations Such as:

- Consumables for administrative buildings
- Industrial refrigerants
- Cleaning and surface hygiene products
- Greases and lubricants
- Special paints
- Parts and spare parts for machinery and plant assets.
- Special tools
- Chemical products for the industry (sanitation and disinfection)

Commercial and Industrial Equipment and Machinery Supplier

We are focused on supplying machinery, equipment, parts and spare parts for the industry. One of our objectives is to meet the needs required by the works or projects. We are a complete provider of integral solutions in the supply chain for commercial and industrial equipment and machinery.

Our visibility and risk management help to make assertive decisions, boost confidence, security and necessary guarantees. We offer options to our customers to be part of our supply chain. We have specialists for all the disciplines of projects and maintenance that arise in the industry guaranteeing the inventory and timely replacement of parts, spare parts of our customers.

Rotary Equipment Portfolio
Pumps, Motor Pumps and Electric Pumps

- Electric submersibles
- Centrifuges
- Reciprocants
- Progressive cavity
- Sliding vanes
- Screw Pumps
- Axial or piston reciprocating
- Ge-rotor
- Bent Axis

Parts and Spares

- Overhaul kit
- Bearings and oil seal
- Gaskets, seats and mechanical seals
- Rotors and stators
- Impellers and shafts

Portfolio of Products for Water and Fluid Treatment

- Water treatment lines
- Systems and technology of filtering and water treatment, separation and recovery.
- Nanotechnology, water treatment plants.

Rotary Equipments

TLBS Corporation

- We exhibit an extensive and complete range of solutions that includes air and gas compressors, internal combustion engines and turbines
- Portfolio of products for air and gas treatment
- Treatment lines air and gas filtration and treatment systems and technology.
- Nanotechnology, treatment, separation and recovery systems.

Rotary Equipment Portfolio
Compressors and Moto-Compressors

- Electro compressors
- Moto compressors
- Centrifugal rotary
- Screw compressor
- Reciprocants, axial or piston
- Sliding vanes

Turbines

- Gas
- Steam
- Hydraulic
- Wind Power

Parts and Spare Parts

- Overhaul kit
- Bearings and steppe
- Stakes, seats and mechanical seals
- Rotors and stators
- Impellers and shafts

TLBS Corporation

We Offer Solutions in Rotary Equipment of the Latest Technology in Motors, Power Plants, Generators, Fans and Industrial Blowers

Materials and Electrical Parts

- Cables
- Pipes
- Connections
- Electrical panels
- Protection and control devices
- Transformers

Rotary Equipment Portfolio Engines

- Internal combustion (diesel, gas)
- Electric
- Pneumatic
- Hydraulics
- Industrial Blowers and Fans

Product Portfolio for Systems

- Electric
- Pneumatic
- Hydraulics

Parts and Spare Parts

- Maintenance overhaul kit
- Bearings and steppe
- Stakes, seats and mechanical seals
- Rotors and Stators
- Blades and blower
- Valves, connections and hoses
- Control devices

Static or Fixed Equipments

We offer solutions in static or fixed equipment for thermal systems with the best technology for commercial and industrial residential heating and cooling systems.

Refrigeration Systems

- Heaters
- Condenser
- Coolers
- Evaporators

Static or Fixed Equipment Portfolio

- Boilers and calorie exchangers and industrial ovens

Boilers

- Pirotubular
- Water-tubes

Heat exchangers

- Parallel, fixed and cross flow
- Concentric, Shell tube and compact

Industrial Ovens

- Electric
- Gas / Diesel
- Mixed

Solar Energy System

- Load cells
- Lamps
- Batteries
- Inverters and insulation for solar systems

Parts and Spare Parts

- Kit for review
- Bearings and steppe
- Gasket, mechanical seats & seals
- Rotors and stators
- Impellers and shafts
- Valves, hoses and connections
- Circuit lines, tubes and coils
